

AZIZBEK ALISHEROV

SAMARKAND, UZBEKISTAN

ABOUT ME

I am a motivated Junior Frontend Developer with hands-on experience building responsive and user-friendly web applications. During my studies at Najot Ta'lim, I gained strong skills in HTML, CSS, SASS/SCSS, JavaScript ES6, Typescript, React, Redux, Zustand, Tailwind CSS, Bootstrap, and Git/GitHub. I also have practical experience working with modern UI libraries such as Ant Design, Material UI, and ShadCN.

SKILLS

HTML, CSS, JavaScript (ES5, ES6+), TypeScript, Next.js, React, Redux toolkit, Zustand, Git Github

EXPERIENCE

Frontend Developer, Self-employed — October 2025 – Current

- Developed frontend for ERP and CRM systems using React and Tailwind CSS.
- Created responsive dashboards utilizing Ant Design for enhanced user experience.
- Implemented state management solutions and handled API integrations using Axios.
- Collaborated with backend team to ensure seamless integration of frontend and backend functionalities.

Frontend Developer — CD IELTS Platform (Personal Project), January 2026 – February 2026

- Built a full-featured IELTS practice platform using **React.js**.
- Implemented efficient **server state management with React Query** for handling asynchronous data.
- Utilized **React Context API** for global state management across multiple components.
- Developed dynamic test navigation, question rendering, and user interaction features.
- Focused on performance optimization and scalable component architecture.

Frontend Developer — Mega IELTS Exam Platform, February 2026 – Present

- Developing a full IELTS exam platform frontend **from scratch using Next.js**.
- Building scalable and SEO-friendly pages with **Next.js App Router architecture**.
- Implementing reusable UI components and structured project architecture.
- Designing interactive exam interfaces for reading, listening, and practice tests.
- Integrating APIs and optimizing performance for a smooth user testing experience.

EDUCATION

Najot Talim; Samarkand - Front-End Development Course 2024-2025

I studied **Najot Ta'lim centre** as frontend developer during the last year I learnt HTML, CSS, SASS, SCSS, Bootstrap, Tailwind CSS, React, Redux, Zustand, TypeScript and Next.js. I have experience working with React state managements such as CONTEXT API, **Redux toolkit** and **Zustand**. I have experience with working React design libraries such as Ant Design, Material UI and SHAD CN. I am also skilled version control with Git and GitHub.
